Proposal Format for CHHS Seed Grant Research Funding
Target Length: 2 pages

Date of Application:

Name(s) of researcher(s) and school(s). If interdisciplinary, give disciplines of researchers:

Title of Project:

Description of the project including (as appropriate):
  Significance
  Specific Aims
  Research Design
  Approach (target population, accessible population, access to subjects, instruments or measures, data analysis strategy)
  Expected Results
  Projected Timeline:
  Anticipated Problems and Their Solution
  Risks to Human Subjects

Describe the anticipated scholarly outcomes of this project including plan for external funding:

Describe how this project will leverage the investment and support the mission of school, college, and/or university:

Budget and justification for the period June 1-June 31 (itemize estimated costs for specific items):

Explain how travel (if requested) relates to the proposed project.

Please list prior CHHS Research Grants and indicate the submission date of the final report and the outcomes of that funding.

Attach vitae of researchers.
*Please note that while Apple products are permissible on campus, they are not supported by NIU nor by the College of Health and Human Sciences IT team. For this reason, purchase of these products via this internal grant mechanism is permissible only in extraordinary circumstances.

To Be Completed by School Chair

I have read this application and concur that it should be considered for funding.
