College of Health and Human Sciences

Bachelor of Science (B.S.) in Health Sciences – Degree Completion Emphasis McHenry County College – AAS Health Information Technology¹

The Bachelor of Science in Health Sciences program is designed to prepare the student to enter allied health and other health related fields. The health sciences program focuses on providing the student with a strong foundation through general education and health science-based curriculum with a focus on health care leadership skills, financial principles, management strategies, and standards to improve patient care.

The degree completion emphasis is off-campus/online and is designed uniquely for health and human sciences professionals. Applicants must be practicing health or human sciences professionals who hold a current professional credential, certificate, or license in a health or human sciences field and have completed an applied associates degree program or equivalent number of credits. The professional credential, certificate or license must be in the field in which the degree was earned.

Academic Advising

All NIU students must meet university graduation and general education (GE) requirements. Degree completion students work with an advisor to identify GE deficiencies and monitor progress toward completion of these and other university graduation requirements (i.e. 120 total credit hours with at least 30 hours from NIU.)
